Deliverable Summary

This deliverable introduces the four videos that summarize main results from the COACCH project.

1. Introduction

This deliverable introduces the four videos that summarize the COACCH project methodology and main results. The videos offer a project narrative structured along the following points:

1. COACCH summary (general overview of the project)
2. Highlights on COACCH climate change impact assessments
3. Highlights on COACCH tipping point assessments
4. Highlights on COACCH policy assessment.

2. COACCH summary

This longer video (4 mins.) offers a description of main methodologies and results obtained by the COACCH project. It is commented by pictures, short videos and, graphs and figures from the COACCH project deliverables. The whole video is subtitled in English.

The video is available at:

YouTube link <https://www.youtube.com/watch?v=5HWTwJwqvbl>

Link sito <https://www.coacch.eu/media/>

3. Highlights on COACCH climate impact assessments

This shorter video (roughly 1 min.) summarizes some selected results from the COACCH climate change impact assessments. It is commented by two short notes held respectively by prof. Francesco Bosello (CMCC) COACCH project coordinator, explaining project macroeconomic findings and by Dr. Iva Zverinova (Charles University, Prague) focussing on COACCH analysis of climate change impacts on health. This video is in the final editing phase.

4. Highlights on COACCH tipping point assessments

This shorter video (roughly 1 min.) summarizes some selected results from the COACCH tipping point analysis. It is commented by two short notes held respectively by Dr. Gabriele Standardi (CMCC) introducing the concept of climatic and social

economic tipping points developed by the project and by Dr. Kees Van Ginkel (DELTA RES) presenting some reflections on riverine floods. This video is in the final editing phase.

5. Highlights on COACCH policy assessments

This shorter video (roughly 1 min.) summarizes some selected results from the COACCH policy assessment. It is commented by two short notes held respectively by prof. Francesco Bosello (CMCC) COACCH project coordinator, introducing the major findings of COACCH cost-benefit mitigation policy assessment and by Eva Preinfalk scientist at Graz University presenting key results from COACCH analysis of adaptation policies. This video is in the final editing phase.
